

BRYAN'S GREAT VOTE.

The latest returns show Bryan received six million votes, 700,000 more than Cleveland in 1892. There was great political apathy in 1892 which accounts for this in part. But it is folly to say that Mr. Bryan received this vote as the candidate of "anarchy, repudiation and dishonor." Neither was his vote due entirely to the silver issue, or to the unrest among the people. His vote was in general a protest of "the under dog in the fight" for existence. A plutocrat newspaper sees a hopeful sign in the fact that syndicate manager Morgan is grasping the great Erie railway system away from the Vanderbilts. This paper cannot see how that will benefit the laborer or producer who are taxed and ground down to poverty by these corporations in order that one man may be worth hundreds of millions.

The vote for Bryan was a protest against trusts and plutocracy, against the overthrow of a Democratic form of government.

Analyze the election returns. It was the east that elected McKinley. But for the pluralities cast for him in New York, Pennsylvania and Massachusetts, Bryan would have led him on the popular vote.

It was not a landslide after all. The latest canvass of the returns shows that McKinley's plurality was but 600,799, and his majority 307,627. Immediately after the election the victor's plurality was estimated at 1,600,000.

The Washington Post which supported Mr. McKinley during the campaign, does not take the view of most goldbug-papers that the American people repudiated Mr. Bryan. Referring to the popular vote, it says in a recent editorial:

There are some very significant features in these figures. They furnish much food for thought. The Republican and assistant Republican organs, for instance, are sneering at Mr. Bryan, declaring that he has been repudiated by the American people and that it is a piece of ridiculous impertinence in him to think of 1900 or to suppose that the American people regard him with anything but pity and contempt. It strikes us as very stupid to put forward such propositions as these. Mr. Bryan got 6,221,552 votes. Six and a quarter millions of men are worth thinking about especially as nearly all of them are native born white Americans.

There were not that many voters for Mr. Cleveland in 1892, as his vote that year was only 5,556,502, nearly 700,000 less than Mr. Bryan received on the 3d inst. If, therefore, Mr. Bryan is an object of derision because of the popular repudiation involved in a vote of only 6,221,552, how are we to estimate Mr. Cleveland's standing with the masses in the light of his vote of only 5,556,502? The fact is that taking the 138,570 Democratic votes that went to Palmer and the 400,000 or 500,000 other Democratic votes that were given to McKinley direct and adding these to the vote that he had actually received, Bryan would have carried the country so far as concerns the popular vote—carried it by an immense plurality.

"The country was not ready for Mr. Bryan. He was hampered by elements that would have loaded down his administration and ruined the cause of popular government. Those elements are now eliminated. He stands before the people as the man who got the largest popular vote given any man who has ever sat in the White House. A committee of nine senators has been raised to investigate the vote cast in 1896 for President. We do not know what they will discover or report. But one fact stands out clear. Mr. Bryan carried on a campaign of ideas and not with money. It takes from three to six months to educate the voter on a political issue. It only takes a minute to buy him if he wants to sell that explains Bryan's defeat.

THE SALEM HOG.

Prosperity has struck Salem, at least in spots. The Marion county jail is situated about one mile and a half from the penitentiary, with street cars running direct from one institution to the other. It costs the county \$8.50 to convey a prisoner from jail to the pen, that is, the sheriff gets \$3, a guard \$3, and a hack \$2.50. At a recent session of the circuit court, Judge Burnett sentenced nine prisoners to the penitentiary, and it took nine days to get them there, costing \$76.50. The sheriff says the law allows him these fees and he will take them. In very rare cases it is necessary to have a guard or assistant to escort a prisoner to the pen in Salem, and the fare is but five cents on the cars, and the nine could have been taken to prison in a couple of hours with the assistance of one deputy sheriff if needed. Another prosperous business is the publishing of the delinquent tax list, the minimum price for which is fifty cents per line, charged to the taxpayers. The last tax list made 1653 lines. The Salem hog has got its snout in pretty deep just now.—Portland Tribune.

As the Tribune says, the sheriff of Marion county is prosperous. His compensation of \$600 to \$700 a month comes out of the taxpayer. As deputy for four years this same man did perform these same services for from \$50 to \$100 a month.

But THE JOURNAL does not object to an official taking his salary or even full legal fees in addition so long as it is the law. The law is pernicious that allows such fees, or any fees in addition to salary. What people will censure Mr. Wrightman for is taking advantage of his position in these hard times, or at any time, to unnecessarily and unjustly swell his fees and increase the burden of expense on the taxpayer. If he maintains this policy for his first term not a corporal's guard, outside of those he hires, will ever support him again for sheriff.

THE JOURNAL supported the legislative and county Republican ticket at the June election, because taken as a whole they were a creditable set of candidates. Mr. Wrightman received the smallest vote of any successful candidate. He is a young man and while he is admitted to be competent in every way, the manifestation of an extravagant disposition cannot be tolerated even among Republicans.

MITCHELL'S POPULISM.

Senator Quay remarked suggestively that the Oregon senator should not push his resolution, for there might be developments in his state, which would assist the theory of the resolution, so that a little delay might aid its prospects.

The above paragraph appeared in our news columns, on the occasion of Senator Mitchell's calling up his amendment to the constitution to have senators chosen by direct vote of the people.

The Senators do not seem to treat seriously the Senator's populist inclinations. They made fun of him in the senate right to his face.

Of course, if four years hence the Republican national convention declares against election of senators by direct vote of the people, Senator Mitchell will take the stump against his own proposition just as he did against silver.

THE TACOMA NEWS.

A recent canvass of the households of Tacoma shows that the Tacoma Evening News has double the circulation of both morning papers in that city. The news is a paper of character and ability and not a mere political prostitute to gratify the desires of individuals. The News is to be congratulated on its success in maintaining its character and reputation for intelligence and veracity in the whirlpool of conflicting interests of low-grade politics from which latter it must be difficult for any newspaper or citizen with a particle of self-respect to extract much satisfaction. We would make only one change in the policy of the News. We would put the name of the talented individual who is editor at the head of the editorial page.

The Mitchell men will rely on a caucus. If they can only get a majority of the Republicans they can hold a caucus, but that will bind no one. Such a caucus only serves the ends of those who consent to it. It can compel no anti-Mitchell Republican to vote for Mitchell.

A fearless Iowa man in response to the toast, "Peerless Iowa," at a Des Moines political banquet rather took the hide off of state pride by showing in a peerless manner that all the state institutions are over crowded and that Iowa in some respects is far behind Missouri and Nebraska, the homes of Democracy and Populism. This lawyer that spoke is a Republican but he told some hard facts. His name is Odell and he hails from the northeast part of the state that produced Governor Larrabee and where there is a great deal of healthy independent political sentiment. Odell is a man of ability and would make a good governor.

The telegram that McKinley has offered Allison of Iowa, the place of secretary of state in his cabinet is without much foundation in fact. It is about the last place Allison is fitted for. He has made a record as senator entirely devoid of those positive elements of character that are required in the state department to enable our country to command respect in the administration of foreign affairs. Allison is a diplomat but not a statesman.

The counterfeiter may help solve the silver question. He is coming no one knows how much silver just as good in every way as the lawful government coin. He may force the restoration of silver as money. If that isn't free coinage we would like to know what it is. The counterfeiter may not be able to swell the volume of circulating medium perceptibly but their money is good as far as it goes.

VALUABLE AND USEFUL PRESENTS.—Anyone wishing to purchase a suitable Xmas present would do well to examine my stock of hides and rugs. Corner of Thirteenth and Chemaketa streets.

Hon. T. T. Geer's campaign argument: "These hard times struck us five minutes after it was known that Cleveland was elected. They will leave us as soon after it is known McKinley is elected." Mr. Geer deserves the best plum in Papa Hirsch's box.

If a man knew he was going to be hanged, he would certainly make every effort to prevent it. He would do everything he could and strain every nerve to the last minute to get himself out of his predicament. Men have been saved from hanging after the rope was around their necks. There are ways of dying that are not so quick that are even more certain. The man who neglects his health, and who in sickness refuses to take medicine, really has the rope of disease around his neck. He will die if he doesn't throw it off. A man who will struggle against hanging is really careless about his health. He may be traveling straight toward consumption and pay no attention to it, and yet death by consumption is much more terrible than death by hanging. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption. Consumption is likely to be caused by weakness and in its turn, it increases the weakness. The "Golden Medical Discovery" is an invigorating, strength-giving and flesh-making medicine. It increases the appetite, puts the digestive organs in perfect order, purifies and enriches the blood, and builds up firm, healthy flesh.

In one chapter of Dr. Pierce's great thousand page family doctor book—"The People's Common Sense Medical Adviser"—are scores of letters from people who have been cured of consumption, lingering coughs, throat and bronchial diseases by the use of "Golden Medical Discovery." Their full names and addresses are given and their cases were generally pronounced hopeless by the local doctors. Twenty-one (21) one-cent stamps to pay for mailing only, will secure a free copy of this great book. Address: World's Dispensary Medical Association, No. 66 Main Street, Buffalo, N. Y.
